The Town Plan Program includes principally classified plans. A very few may be unclassified. No unclassified bases of the USSR Town Plan maps are available nor, because of the nature of the program, will they be unclassified.

Maps in the Port Plan series which have been published so far, have been unclassified.

There is no similar town plan program for Communist China or North Korea. However, the Map Library will forward copies of individual maps when produced. This answers the question earlier in [REDACTED] and [REDACTED]
